

## BABY PUPPY BITCH

JUDGE: CAROL O'ROURKE

Baby Bitch, a class of five, was the smallest I have ever judged at an SBE, but I must say the quality of the bitches was very promising.

Catalogue number 102, my winning bitch, who is very typey, filled the eye with her overall harmony and balance and total enjoyment in the ring. A bitch for the future, I look forward to her show career with great interest.

**BABY PUPPY DOG****JUDGE: JOHN FENNER**

With only two baby dogs out of different sires in this class, little can be deduced about breed influences or possible outcomes. Interestingly, neither had littermates in the Baby Bitch class, which lessens the scope for future predictions.

The winner was clearly superior at this stage of his development. Only time will tell if both can live up to their very promising potential for their age at this point.

Very good ground covering movement, where the reach could be just slightly more effective.

**VERY PROMISING****MINOR PUPPY BITCH****JUDGE: RICK RICHARDSON**

It was a very pleasing class of high quality. An outstanding feature, was the overall strength substance and very good type of the bitches presented. Wither height presented no problems and while all animals stood with firm backs, due to their age of course they have not yet achieved final firmness in ligamentation, which was mentioned in a couple. Of note would be the very good fore and hindquarter in the majority, whilst as is predictable, there is still room for improvement in the croup area.

## MINOR PUPPY DOG

JUDGE: RICK RICHARDSON

This was a very pleasing class to judge, typey youngsters, with a very promising future. These are typical Minor Puppies with the usual problems of youth. Size was very promising with no pups appearing too large for their age. The strength of head and masculinity was very pleasing. Good ears and eye colour throughout. Nearly all exhibited good high withers, surprising firmness of back, and generally good croups

with only minor detractions. Fore and hindquarter angulation was in the main very good. My thanks to the Stewards and organisers, and to the exhibitors for entering under me.

## PUPPY BITCH

JUDGE: BARRY O'ROURKE

This was a very beautiful Puppy Bitch class which augers well for our future development. The overall size, colour, pigmentation and coat condition was praiseworthy. Analysing the Sires in this class, I find four of the seven exhibits have been sired by IWAN VON LECHTAL or his sons, which highlights the prepotency of this sire line. The overall development of these bitches for their age, especially their fore and under chest development, overlines and moulding of the croups, is very good. This class has much quality and therefore potential for the future.

DP1 Upper right. 10 months. Correct medium size, medium strong, substantial, very well proportioned bitch of very good type, good head and expression. Stands with normal withers, firm, straight back, very good angle of croup which is just slightly short, good forequarter angulation. Very good hindquarter angulation with very good breadth of thigh, stands correct in front with straight bones, good fore and under chest development. She steps slightly loose going and coming. Very good movement, falls slightly on the forehand and the overall movement should be more expansive.

**VERY PROMISING****JUNIOR BITCH****JUDGE: ROBYN KNUCKEY**

Firstly, thank you to the exhibitors for entering, and thank you to the ring steward Kevin, gate steward Andi and stenographer for their assistance on the day. There were 8 bitches entered, with 6 presented in the class. Of these 6, there were 2 sets of litter sisters. The most predominant sire line is \*Ch Iwan v Lechtal with 1 daughter and 4 grand-daughters presented, from 3 litters. \*Eisenland Implicit (Turnberry Archimedes/Eisenland Evette) was the most dominant dam line with 3 grand-daughters and 1 great grand-daughter presented, from 3 litters. The other line present was, litter sisters, from Troy Noriswand and the 2003 SBE Reserve Siegerin \*Hinterhaus Tempest. 3 bitches had no line-breeding and the other 3 were linebred on Q litter Arminius.

**The virtues of the class:**

- Type
- Hindquarter angulation
- Eye colour
- Strength
- Movement coming and going

**The points for consideration in the class:**

- Croups, 4 were slightly short and slightly steep
- Forequarter angulation, 4 had steep upper arm placement
- Firmness of the topline in movement
- Size, none were oversize, but 3 were measured over 60cm.
- Temperament, most bitches were uncomfortable with the measuring process

## JUNIOR DOG

**JUDGE: BARRY O'ROURKE**

Having judged the Junior Dog class at many Main Breed Exhibition and State Breed Exhibitions, I can only say to you that this class (excepting the numbers) was the strongest Junior Dog class yet. The strength of these young males gave me tremendous satisfaction in having helped steer the breed to this point.

One can only say it was the influence of a certain Sire, but in this case five sires were represented which widens the genetic pool for the future. This class was created from both sire and dam lines. The dams were not all imports, credit here goes to the breeders who have hung in there and supported us.

My Seiger catalogue 146 and Very Good Merit 1 "Iccara Enemy Within"

Sired by Ingo Von Frankengold whom I am pleased to say has left very good progeny. Dam is the past Siegerin Iccara Intymate. This is a large 65cm strong masculine dog whose sequence of steps at all speeds is absolutely correct, thereby he possess the correct angles of both the fore and hindquarters. He is also a dry firm strongly pigmented and beautifully coloured dog who exudes his masculinity and I had no hesitation in awarding him Very Good Merit 1.

Second Catalogue 142 "Seigen Jaafaru" 'A'Z'

Sired by the Aus. Sieger Troy v. Noriswand. Dam the beautiful Hinterhaus Tempest. This is a very large dog - 66cm. Again another beautiful dog who is sire typical, very well angled and has a very good top and underline which he maintains during the gaing exercise. Potentially a very good source of the sire line.

Third Catalogue 141 "Alderhaus Quintessential" 'A'Z'

Sire Austrian and Aus Sieger Iwan von Lechtal. Dam Eisenland Zaska - litter sister to the Gold Medallist and State Siegerin Eisenland Zilli. This is a dog of excellent lineage standing at 65cm. He is a firm dry very well pigmented and coloured dog whose overall firmness was convincing throughout the class.

Fourth Catalogue 147 "Aldahoven High Flyer"

Sired by Nitro Von Tronje Dam Aldahoven Magenta. He was the youngest dog in the class but showed excellent development for his age. He has an excellent head and expression, substantial, overall masculinity.

Fifth Catalogue 143 "Iccara Against All Odds"

This again is a large 65cm strong and substantial masculine dog. He has excellent head and expression. This is a beautiful dog whilst standing, a dog with correct training could rival for first place.

Sixth Catalogue 144 "Alderhaus Red Hot Rock"

A correct medium size 64cm strong, substantial and masculine dog whom mirrors father type. He is still to firm in both hocks and elbows.

Further proof of the quality of this class was that the first three were placed in the first six at the National the following week.

## INTERMEDIATE BITCH

JUDGE: JOHN FENNER

Two of these bitches, placed 1<sup>st</sup> and 3<sup>rd</sup>, are sired by Ingo vom Frankengold and the impression is that as a sire, Ingo has the potential to produce some very typey offspring with some of the desired anatomical components for breed improvement. The second bitch is out of Triumphs Kazan and typical of what one might expect from this sire, with good type, sound and moderate construction, and relative freedom from exaggeration.

Given their relative results from individual show performances and completion of breed status, none of these bitches could be considered for the additional "Merit" award.

**VERY GOOD****OPEN BITCH****JUDGE: HONEY GROSS-RICHARDSON****SUMMATION OF VIRTUES AND FAULTS**

Before I go into the virtues and faults of the 15 lovely bitches presented to me, I would like to thank the exhibitors for their entry and for their good sportsmanship in accepting my judging and evaluation of their animals.

The State Breed Exhibition is not a show the judging of which is entered into on the spur of the moment or without a fair amount of research and study prior to the event. Show results are studied, blood lines are scrutinised and the whole family of any of the animals expected to be in the SBE, are keenly followed as far as antecedents and show results are concerned, and of course the ever growing data on conformation, hips, elbows is referred to.

Some of our exhibitors would expect there to be a fair amount of pre-judging on pedigree alone and for this to strongly influence the outcome, but it is never that easy!

At a State Breed Exhibition, just as at a Main Breed Show, it is the sum total of the animal presented before the judge, the track record of that animal, the achievements of the family - the background - the siblings - the progeny if any - and finally, the performance of the gaiting and the overall evaluation combined, that must lead the judge to the strength of his or her conviction that the animals presented are to be sorted out and graded in the following final order. They are awarded a grading commensurate to the overall picture and information gleaned. To this is added the judges' evaluation and prediction of what can be expected, all rounded off by the animals' performance on the day.

I have been deeply impressed with the number of quality bitches presented before me and in my final summation on the pegs, have awarded the Excellent Merit grading to three truly outstanding animals in this class, representing three different sire lines, with the first 6 excellent graded bitches also tying in with the sire line of the third exc merit animal of the year 2003 State Breed Exhibition. The strongest influence of all and this is seen as a strength in our breed of today, is that of Iwan vom Lechtal who himself and through his sons, was found in over 66% of my Open Bitch class. Because of the diversity of the bitch lines, we can utilise the many virtues of Iwan without running the risk of restricting our bloodlines to any detriment. We already have a fair number of suitable sires to complement our animals not only in the country, but right here, in W.A. and our dedicated breeders will make good use of them.

The very impressive results I have found in my classes and my fellow judges have found throughout the show, can be directly attributed to the skill and dedication of our close knit community of breeders who may stand in intense competition with each other and yet find the wisdom and astuteness of fostering each other's animals and utilising the best that the opposition has to offer in order to improve and build upon their own already well consolidated lines.

The sportsmanship at this years State Breed Exhibition was tremendous and in closing, I would like to thank my fellow judges, the stewards, the typists - with a special thank you to Jodie's mum and of course my husband Rick who tackled his first lap top on the Sunday, with Kay Sauer and the ever efficient gate stewards keeping the show running smoothly in my ring. To all the Stewards, all the helpers of the

committees who made the whole weekend such a resounding success, and in this, I would like to include our Obedience fraternity as well, THANK YOU!

It has been my pleasure to be able to present the grading of

**Excellent Merit** to 3 of these lovely bitches.  
**The Excellent grading** was presented to 9 bitches  
**Very Good** was awarded to 2 of my exhibits.

Sadly, one of my sure and certain "excellents" had a bad day and reacted badly to the gun test. Please see over for the synopsis of my findings of the Open Bitch Class. The Temperament of all the bitches presented, was excellent. Self assured, calm or lively and good natured without exception from 1<sup>st</sup> to last.

The SBE 2003 Open Bitch class excelled with an entry of 21 of which I found a total of 15 bitches presented on the day. The breakdown of sire-lines and influential dams follows this report on the structure and temperament of the animals presented.

**SIZE:** One bitch was measured at 60.5cm, very large, 8 are large, just 4 above medium size and 2 bitches came in at medium size. Overall a VERY pleasing result!

**TYPE:** Excellent and Very Good throughout.

**STRENGTH:** A good quality class overall, 10 bitches strong, and 5 medium strong.

**SUBSTANCE:** Lovely throughout. Nothing lacking in substance or fine in bone either.

**PROPORTIONS** Overall correct ratio of length to height, one just slightly stretched.

**SEXUAL DEFINITION:** Pronounced in all our bitches.

**EYES:** Dark eyes were described in four of my bitches, with 9 being critiqued as having medium eyes, where the eye could be a little darker.

**EARS:** All bitches had beautiful well set and carried ears as can be expected in the Open Bitch classes of today, with just a slight inward tilting found in my Exc.3 bitch.

**WITHERS:** Not surprisingly all animals were critiques as being high withered. This too is a trend already documented in our Breed Survey books!

**BACKS:** Very pleasing indeed, all backs well muscled, and firm, even in my two VG bitches whose slight shortcomings were in other regions.

**CROUPS:** These I found to be very good in my Excellent Merit bitches. The croups overall were very pleasing, with 12 of the croups critiqued as Good, with only three being slightly short, 6 slightly steep and only 1 slightly short and slightly steep.

**FOREQUARTER ANGULATION:** Overall very pleasing results with our young broodbitches all showing the influence of our present stud dogs, giving a longer upper arm and better angles. 10 were critiques as being Very Good, with 5 having just Good forequarter angulation, although there are some in which the upper arm could still be better angled and of these we found 8, even a couple in our VG forequarters. In three of the bitches the upper arm could be a little longer.

**HINDQUARTER ANGULATION:** Very Good throughout the class. No lacking angulation nor were there any over-angulated bitches presented.

**FORE and UNDER CHEST:** Very good in all animals presented, no lacking forechest although in a couple I might have mentioned, but did not, a slight deepening of the chest not found earlier on, that appears to have been a consequence of a litter and maturity.

**FRONTS:** All correct, (a couple still correct) - no east-west tendencies.

**GOING** : 13 stepping correctly, 2 just a little wide, **COMING:** All stepping correctly

**MOVEMENT:** Reach and Drive was Very Good in 11 of the exhibits, with only 4 showing restricted reach and 1 with definite restricted drive. A very pleasing class overall.

**TEMPERAMENT:** excellent throughout, **DENTITION FAULTS:** None, some D P1.

Line Breeding: Q Litter Arminius Quando-Quina 5-5,5; Enzo Burg Aliso 4-5; F Litter Hirschel Frei - Fanto 5-5

The sire, Triumphs Kazan, imported from Sweden, and Excellent Select, has already made a name for himself with his progeny of great harmony, very good angulations, and well placed croups. Going back to the VA dog Quartz di Templari, and through his mother Triumphs Amy; to Matty and therefore Zamb v d Wienerau, with the added line to Enzo vd Burg Aliso he has given of his best to this lovely daughter of Eisenland Persuasion, a top producing daughter of Lesko Wildsteigerland from a line of excellent producing Eisenland bitches going back to Cherylton Alita CDX, ET TDX.

Eisenland Zilli has proved her own worth in her illustrious show career from winning the WCC as Puppy to Multi Excellent at Nation wide competition and winning the National Gold in 2002. Perhaps this could happen to a flyer! Zilli as she stands before us, however, is a product of careful breeding, destined to breed on. Based on the strength of her sire, his success as a producer of quality stock, and the outstanding success of her strong mother line and family, also making a name for themselves, regularly exhibited nation wide, I would expect to see, and predict, top quality progeny from her in the future. Progeny: None to date, as she was strongly campaigned in the show ring

3 ¼ years.60 cms A large, strong and substantial, harmoniously constructed, expressive bitch of excellent type. Very good feminine head with beautiful masking, the eye could be a little darker. Stands with high wither, firm back, very good croup. Very good fore and hindquarter angulations, very good chest proportions, pleasing top and underline. Stands correct in front, steps correct coming and going. Exhibits zestful roomy movement with very good reach and powerful drive. Displays very good overall firmness in the off lead gaiting performed with very good reach and drive levelling out for very effective ground coverage.

From a repeat mating. Iwan has brought us substance and type, excellent pigment and colour, beautiful angles and overall the virtues of the Mark vom Haus Beck lines. In this bitch, we carry the genes of WCC Siegerin Duval Elle Mac, whose prepotency for strength and beautiful angles as well as good hip results, is evident in her progeny. Going back to Edlenblut Orkan and Quincito Awol. Versace embodies the best of Australina breeding coupled with Australia's leading sire of the decade, Iwan vom Lechtal. She is my Intermediate Bitch class winner of the year 2000 SBE, and has always accredited herself well at shows. Has produced a litter which sadly was lot to snake bite, and can be expected to produce excellent progeny for the future.

The Iwan Lechtal son Denargun Brownd Off needs no further introduction to our breeders. The virtues of his family are well documented, as is the well cemented bitch line of Eisenland Dolci Vittta. She is a bitch of predominantly modern German bloodlines, with just a dash of Australian Aristocracy in her veins. Her mother, a Kim vom Kaibach daughter, also, like the Eisenland E litter, carries Arko Huhnegrab, and coming from a consolidated family, Dolci Vittta can be expected to produce well. Progeny: None

Line Breeding Erntemond Gold Lancer 3-4, and Prima Zorba 5-3

The sire, Davic Bowie is also the sire of Hinterhaus Tempest, this year's Excellent Merit 2 bitch, who is making a name for herself with her progeny. To have two such beautiful daughters entered in the Open class speaks for itself. As for Jentol Loras Impasse, her mother is a daughter of the Excellent Merit dog Skefmore Maurie, a Zorba son and Impasse comes from three generations of Jentol bitches wisely mated to leading or compatible sires. Progeny: By Seigen Jaafar, 5/5 and rated Very Promising, VP, at this year's SBE. Another lovely bitch of valuable bloodlines, who can be viewed with great expectations for the future.

3 ½ 59cms Double p1 upper left. A large, medium strong and substantial, well coloured and pigmented sable bitch. Very good head and expression. Good medium brown eye colour. Stands with high wither and firm back, good croup which is just slightly steep. Very good fore and hind angulation where ideally the upper arm could be a tick longer. Very good forechest development, pleasing top and underline. Stands correct in front. Steps correct coming and going. She exhibits very good ground coverage with free reach and effective drive. During off lead gaiting her movement is expansive, exhibiting very good overall firmness after her litter of which one very promising youngster was exhibited.

Line Breeding: NIL

The Excellent Select CH. Triumphs Kazan is combined here with the valuable bloodlines of the dam of one of W.A.'s top bitches, Gr. Ch. Jentol Reckless Raver Excellent Merit. Her daughter, mother of the lovely bitch before us, Ch. Sterbach Reckless, is a Monte Cito daughter and on the mother's side comes over Prima Zorba and Stobar Yatze, who is by Rocko Hühnegrab from a Heiko v d Burg Hausbrunn daughter, Stobar Ronni. On the strength of her own great virtues, and the strength of her family, I would expect an excellent show career and top quality progeny from her in a very successful future.

Progeny: None

2 years 10 months 57cms A good medium size, medium strong, well constructed bitch of very good type. Very good feminine head pleasing expression, stands with high withers, firm back and a good croup. Slightly high tail set. Very good fore and hindquarter angulation, very good fore and underchest. Stands correct in front. Steps correct coming and going, exhibits powerful movement, far reaching and with effective drive. Exhibited balanced far reaching movement maintaining very good firmness overall also in the offlead gaiting.

Line Breeding: Q Litter Arminius Quina, Quana, Quando 4,5,5 - 5,5

The third of the Eisenland E Litter entered in the year 2003 SBE. With the prepotent bloodlines of Iwan Lechtal and her excellently producing mother line, she is a bitch with very good breed value and on the strength of her family background, should do well for the next generation with careful selection of a dog consolidating the strength of bone, and substance, with correct angulations and a background of medium size in his family.

Progeny: None

2 years 3 months 60.5cms A very large, strong bitch of very good type. Strong feminine head where the eye could be a little darker. She stands with high wither, firm back and a good croup which is a little steep. Good angulation of the forequarter and very good angulation of the hindquarter, good top and underline. Stands correct in front, steps correct coming and going with hock joints that should be tighter. Shows good movement with the drive more effective than the reach. Dvorak Achiever, a Duval Maverick son, by Bedwins Siegfried, combines the lines of Jeck Noricum and on the mother line, Lindendale Thunderbolt and Quincito Awol. The dam, Iccara Chilly Pepper, is a Gauner Siedland daughter who brings us the attributes of Erntemond Gold Lancer and the Excellent Select CH. Tumblin Dce CD. With her family background, this bitch should do well in the future with the selection of a breeding partner bringing strength and the desired angulations to add to her own considerable virtues.

Results: Very Good performance in Obedience and Agility

Progeny: None

3 ¼ years 58cms A very good medium size, medium strong, expressive sable bitch of very good type. Very good head and expression. Good medium eye colour. She stands with high withers and firm back. Slightly short, slightly steep croup. Good forequarter and very good hind angulation. The upper arm should be a little longer and better angled. Stands correct in front, steps correct coming and going, the elbow connection could be a little tighter. Exhibits very good ground coverage with good reach and effective drive. Showed herself full of enthusiasm for the off lead gaiting exhibiting good ground coverage and maintaining a good topline.

The Sire: \*Uno v d Urbecke SchH3, FH, (Imp Gmy) is a dog who has produced extremely well to a number of bitches from varying families. He is a Visum Arminius grand son linebred on Pütz Arjakjo, Uran Wildsteigerland, Argus Aducht and the Q litter Arminius. The dam, \*Seigen Fizz Gig, very selectively shown, is a daughter of the Excellent Merit dog Lindendale Thunderbolt who through his mother Dorsten Sinnita brings a double dash of Quincito Awol as she also appears in the mother's side of the pedigree through Lindendale Strike Force, bringing us the influence of Prima Zorba. A bitch carrying very valuable bloodlines and exhibiting many of the virtues of her family. With further training, she should attain a higher placing and grading and she presents a good basis for a very promising future generation.

The National and MBE winning Iwan needs no further introduction. He has sons of great prepotency for many of the desired virtues that this great dog has brought us. CH Beutrae Devine is a Karlach Run About daughter, and so brings us a line to Orkan. She goes back to Prima Zorba and Condor von Arminius, an advantageous combination in the lovely bitch here before us.

3 1/2 years 60cms A large, strong, substantial bitch of very good type. Strong feminine head with very good expression, medium brown eye. Very good high wither, firm back, the croup could be a little longer still. Very good fore and hindquarter angulation where the long upper arm could be a little better angled. Very good fore and underchest development. Stands correct in front. Steps wide going, correct coming. Exhibits expansive movement. During the off lead gaiting exhibited very good drive maintaining a firm topline and good overall firmness. She has produced two litters, and presented a class winner at this year's SBE. She has retained her firmness and dryness and personifies a very good brood bitch. She has produced the Baby Bitch class winner at this year's SBE, Very Promising!

Unfortunately she showed herself not sufficiently firm under the gun on this day.

In closing, I must congratulate the whole team of workers in the ring, from the ever efficient stewards, our typists, also Clinton - being ever ready to come to the rescue if the lap top had a hiccup. Ian, standing by to assist with the critique typing and every man, woman and child who helped make the State Breed Exhibition 2003 a resounding success!

I am already looking forward to the successes at the National of "our team" and wish all exhibitors the very best for the future.

It will be interesting to see how the promising youngsters we saw during the show will develop and for our Open Bitches and their counterparts, the Stud Dogs of W.A., may I wish them and their owners the very best for future shows and years to come!

Thank you, exhibitors, for entering under me.

2 years. 65.5cm. Large, medium strong, harmoniously constructed, richly pigmented sable dog of excellent type. Masculine strong head, desired dark eye. Long neck into high withers, firm straight back. Very good mould of croup. Very good fore and correct hindquarter angulation. Praiseworthy is the depth of upper thigh and very good length of foreleg. In stance, exhibits much nobility and vitality with excellent top and underline. Stands with clean bones and exudes much type. Steps correct going and coming where the elbows could be tighter. Exhibits powerful, dynamic drive with very good free flowing fore hand reach where the wither remains high and the ligamentation and back remains firm. A young dog who is presented in the open class for the first time. Off lead commenced unruly, however after repeating, the dog settled, therefore able to assess both his drive, which was powerful, and very good ground covering movement where all components remained firm and tight. Very good free flowing ground covering movement.

#### **EXCELLENT MERIT**

To explain my reasons more fully for the elevation of Eisenland Fernando to State Sieger. In his first year of exhibition in the Open Dog class, one has to read through my summation at the 2002 SBE (of which I was not the Open Dog class judge), my reasons were highlighted there in a need for a direct Quanto vd Wienerau male in our bloodlines. A male who could follow and be effective over the Canto vd Wienerau bloodlines, whose influence via Lindendale Thunder Bolt, Iccara Hard Rock, Iccara Intrepid and Triumphs Kazan and to a large degree, Iwan v Lechtal.

I believe I have found such a dog in my young Sieger, who is sired by Uno vd Urbecke, a direct tail male line to Quanto vd Wienerau through the sieger Visum v Arminius, a line that has not been available to us before. This dog has the added linebreeding advantages of being Fedor v Arminius (5-4) and Eiko /Vassal Kirschtal (5-5). He also carries, through the sire's dam lines, Mutz v Peltzierfarm. In other words, Uno's pedigree is Quando/Canto/Mutz. As I stated before, one cannot rely purely on the genotype, he must also be phenotype. In other words, he must be sire typical.

Eisenland Fernando is a truly beautiful, strongly pigmented grey coloured dog who exudes in masculinity and vitality. I believe he is one of the best young dogs presented in WA. He has very good fore and hindquarter angulations, well moulded croup and effortless free flowing gait, and much zest for running. He is anatomically and genetically of high standard and was Puppy Dog winner at the National 2002, Junior winner at the SBE 2002, Intermediate winner at the West Coast Challenge and since this event he has been awarded Reserve Challenge at this year's National. Until now, a truly superb career for a young dog.

5.5 years. 64.5cm. Correct medium size, medium strong, substantial, harmoniously constructed masculine dog of excellent type. Very good head, very expressive, dark eye. Long neck, moulded into high wither, firm back, good length and slightly steep croup. Stands with correct bones. Very good fore and hindquarter angulation. Very good fore chest development and good underchest. In stance presents nobility, excellent topline and very good underline enhanced by his beautiful colouring and pigmentation and feathering of coat. Presented in very firm and dry condition. Steps correct coming and going. This dog should not be any deeper. Exhibits powerful, dynamic drive presented through expansive forehead reach. The dog was not given his full potential to be exhibited off lead. An attempt was made, and was able to maintain the overall firmness and particularly praiseworthy was the firmness of ligamentation.

#### **EXCELLENT MERIT**

Champion Duval Under Siege was elevated to Excellent Merit 2 in recognition of both his anatomical structure and his excellent breeding, of which is evident and he reflects both sire and mother lines. He has an excellent overline, dryness and firmness; tightness of the elbow connection is praiseworthy. He is a noble dog of much expression enhanced by his strong pigmentation and colour, coupled with his glamorous coat.

This dog represents one of the dogs from the first trio of Iwan v Lechtal, of which were presented at the 1998 National, where we saw Leitungen Prince Rowdy as Puppy Dog winner, Duval Under Siege as Minor Dog winner and the eventual Dual National Gold Medallist Denargun Brownd Off, who was second Minor Dog. The reason I make note of this point is that these 3 outstanding sons of Iwan v Lechtal ruled supreme in their individual states and nationally for a period, which further enhanced the male line of Iwan v Lechtal.

His dam, Champion Duval Elle Mac, needs no introduction, being 4 times winner of the WCC Bitch, and producing her own 10 'A' stamps out of 3 litters. An outstanding producing bitch that in her own right also produced 3 National winners. Duval Under Siege is a dog that comes from a cemented producing mother line, so therefore should be considered in your breeding programme.

Strong head, eye could be a fraction darker. Strong, powerful neck, high withers, straight, strong back. Slightly flat, slightly short croup. Good forequarter angulation where the upper arm could be slightly longer and better angled. Correct hindquarter angulation. Very good depth of upper thigh. Stands with clean bones in front. Very good fore and underchest development. In stance, impresses with his overall harmony, substance and pigmentation. Steps correct going and coming. Elbows should be a little tighter. Exhibits powerful drive with very good ground covering movement and very good forehead reach. Very good overall ligamentation, is tight and firm. The off lead performance was done well and was able to assess the overall firmness both on and off lead.

#### **EXCELLENT MERIT**

My third Excellent Merit is Bruvic Bobbys Boss, who is linebred Odin v Tannenmeise (4,4-5); Mark v Haus Beck (4-5,5); and Fedor v Arminius (4-5). He was presented for the first time in the Open class. He also exhibited progeny and was my Intermediate Sieger at the SBE 2002 when he was awarded the grading of Very Good Merit and is sired by the German Sieger Ursus v Batu, who has already produced the 2001-2002

Sieger Yasko v Farbenspiel. This proves the breeding strength of the father line. His dam, Bluebell v Arminius, was my Siegerin in 2001, and Silver Medallist at the 2002 National.

This dog possesses a very good genetic background. He is of correct size, strong and substantial, with much harmony and strength and possesses excellent pigmentation and colour. Some care should be considered in the area of the croup. His overall presentation and gaiting exercise was convincing, and coupled with his overall breeding, feel that this dog has much to offer in our genetic pool.
